

FIREFIGHTING HELMETS

Honeywell

Ben 2 and Lite Force Helmets

When Durability Meets Protection

Strength

Proprietary shell material provides superior heat protection with 39% more resistance to impact penetration than conventional fiberglass material.

Durability

Precision-engineered with rugged components that stand up to the test of time.

Comfort

Easy-to-adjust padded headband and suspension components ensure a customized fit and low ride.

Innovation

Unique design and materials provide superior protection and functionality.

BEN 2 HELMET

Ben 2 Low Rider PLUS Model

Delivers a low center of gravity, full comfort crown liner, and exclusive 6-position, 38.1 mm (1.5 in) available suspension adjustment for an easy custom fit.

- ① **Durable Eagle Front Holder**
Moves forward and backward to fit any brand/style of front.
- ② **High-Performance FYR-Glass Shells**
Strongest shell on the market. Outstanding heat resistance. Proprietary technology.
- ③ **Bulldog™ Edge Beading**
Rugged and durable.
- ④ **Large Hang-Up Loop**
Large enough to easily fit over a peg.
- ⑤ **Securely Attached Ear Covers**
Tough and durable Nomex® ear covers are easily removed for cleaning.
- ⑥ **Reversible 2-Point Quick-Attach Chinstraps**
Tough and durable Nomex chinstraps are easy to switch to right- or left-hand cinch.
- ⑦ **Comfortable and Easy-to-Adjust Suspension**
Cradles your head in comfort.
- ⑧ **Protected Suspension Attachments**
Internally located and not affected by external heat or flame.
- ⑨ **Built-in Easy Attach Goggle System**
Offers easy attachment for full or 2-strap eyelet goggle.
- ⑩ **Certified EZ-Flips™**
NFPA 1971 and ANSI Z87.1+ standards (optional).
- ⑪ **Anti-Catch Safety Bracket for Leather Fronts**
Exclusive on our traditional helmets.

EZ-FLIPS

Flip-Down Face Protection

The original – and still unmatched. Morning Pride® made the first NFPA 1971 certified flip-down eye/face protection. Our updates ensure we continue to provide the best performance and the largest available unobstructed visual field.

FYR-Glass

Strongest Shell on the Market

Available in:

- Ben 2 – Structural and Proximity
- Lite Force – Structural and Proximity

FYR-Glass is a proprietary custom-blended material found only in Morning Pride helmets. Our testing shows that FYR-Glass helmets are 39% more resistant to impact penetration than conventional fiberglass helmets with or without impact caps. FYR-Glass enables a design approach not available with other materials, resulting in a lightweight, better-fitting helmet. FYR-Glass also exhibits world-class heat resistance performance. After exposure to radiant heat under NFPA 1971 parameters, FYR-Glass shows no blistering or finish damage.

The first helmet with flip-down face protection, certified to NFPA 1971, and still unmatched.

Low Riding, PLUS Fit, Great Protection Superior Suspension System

Morning Pride provides a one-piece headband and ratchet assembly that can be adjusted without disassembly. Our helmets offer the greatest range of hat size fit – from under size 6 to over size 9 – for any structural helmet on the market. Our 6-position suspension provides 38.1 mm (1.5 in) of adjustment for a quick and easy custom fit. Our unique padded suspension system and wider interior provide superior comfort and fit. The FYR-Glass shell is inherently stronger, eliminating the need for impact caps. Morning Pride models deliver a lower center of gravity, resulting in significantly less neck strain.

STRUCTURAL TRADITIONAL HELMET. NFPA 1971 CERTIFIED.

How to Build Your Helmet

Step 1: Specify base model

Base model includes FYR-Glass shell, low-riding headband/crown cover and ratchet pad, 8-point suspension with 6 depth adjustments, aramid liner cap, postman slide chinstrap, 101.6 mm x 3.81 mm (4 in x 0.15 in) new-generation faceshield, 8 lime Reflexite® trapezoids, golden-plated eagle front holder, and hang-up loop.

Step 2: Select required components

- Choose one ear cover
- Choose one chinstrap
- Choose one eagle front holder
- Choose eye/face protection
- Choose one retroreflective trim pattern/package

Step 3: Select options

- Choose accessories
- Choose front
- Choose auxiliary helmet products
- Choose shell color: B – black, W – white, R – red, Y – yellow, O – orange, U – blue, G – green

Standard Ben 2 LR PLUS HT-BF2-HDO with yellow Nomex FR cotton ear cover

EAR COVERS

(required component)
Standard HDO yellow Nomex FR cotton. Optional black PBI® FR cotton (FDNY spec optional material choice). Other outer shell colors available.

Standard
BPR yellow Nomex moisture barrier FR cotton ear cover

CHINSTRAPS

Standard
Nomex postman slide and quick-release chinstrap

Optional
Nomex 4-point with quick-release chinstrap

EAGLE FRONT HOLDERS

Standard
Golden alloy plating traditional eagle front holder

EYE/FACE PROTECTION

Standard
4" x 0.15" new-generation faceshield

Optional
Paulson or ESS NFA 1971 goggles

Optional
EZ-Flips meets standards of NFPA 1971 and ANSI Z87.1+

RETROREFLECTIVE TRIM

Standard
8 trapezoids Reflexite lime

Optional
8 trapezoids 3M Scotchlite™ lime or orange

Optional
8 trapezoids 3M Scotchlite 2-tone lime or orange

Optional
8 trapezoids Foxfire™ illuminating

ACCESSORIES

LITE FORCE HELMET

Lite Force Low Rider PLUS

Delivers a lower center of gravity, and our 6-position suspension provides a full 38.1 mm (1.5 in) of adjustment for a quick and easy custom fit.

- 1 2 High-Performance FYR-Glass Shells**
Strongest shell on the market. Outstanding heat resistance. Proprietary technology.
- 2 Reflective Trim 5 – 25.4 mm x 101.6 mm (1 in x 4 in) Reflexite Lime Bars**
- 3 Bulldog Edge Beading**
Rugged and durable.
- 4 Large Hang-Up Loop**
Large enough to easily fit over a peg.
- 5 Securely Attached Ear Covers**
Tough and durable Nomex ear covers are easily removed for cleaning, available in yellow Nomex 2-layer FR cotton.
- 6 Reversible 2-Point Quick-Attach Postman Slide Chinstrap**
Tough and durable Nomex chinstraps easily switched to right- or left-hand cinch.
- 7 Comfortable and Easy-to-Replace Suspension**
Cradles your head in comfort.
- 8 Protected Suspension Attachments**
Internally located and not affected by external heat or flame.
- 9 Built-in Goggle Retention System**
Goggle-ready and equipped with our unique integrated goggle strap attachment system. No extra retaining parts are required.
- 10 Standard 101.6 mm x 3.81 mm (4 in x 0.15 in) New-Generation Faceshield**

Strongest shell. Modern styling.

FYR-Glass: Strongest Shell on the Market

FYR-Glass is a proprietary custom-blended material found only in Morning Pride helmets. Our testing shows that FYR-Glass helmets are 39% more resistant to impact penetration than conventional fiberglass helmets with or without impact caps.

FYR-Glass enables a design approach not available with other materials, resulting in a lightweight, better-fitting helmet. FYR-Glass also exhibits world-class heat resistance performance. After exposure to radiant heat under NFPA 1971 parameters, FYR-Glass shows no blistering or finish damage.

Superior, Low-Riding Suspension System

Our unique padded suspension system and wider interior provide superior comfort and fit. The FYR-Glass shell is inherently stronger, eliminating the need for impact caps. Low Rider models deliver an even lower center of gravity, resulting in significantly less neck strain.

How to Build Your Helmet

Step 1: Specify base model

Base model includes FYR-Glass shell, low-riding headband/crown cover and ratchet pad, 6-point suspension with 6 depth adjustments, aramid liner cap, postman slide chinstrap, 101.6 mm x 3.81 mm (4 in x 0.15 in) new-generation faceshield, 5 lime Reflexite bars, and hang-up loop.

Step 2: Select required components

- Choose one chinstrap
- Choose one ear cover
- Choose eye/face protection
- Choose one retroreflective trim pattern/package

Step 3: Select options

- Choose accessories
- Choose front
- Choose auxiliary helmet products
- Choose shell color: B – black, W – white, R – red, Y – yellow, O – orange, U – blue, G – green

EV1 HELMET

- ① **Golden Alloy-Plated Traditional Eagle Front Holder**
Standard.
- ② **UV-Resistant Shell**
Available in black, white, blue, yellow, red, orange, green.
- ③ **Reflective Trim – 8 Trapezoids Reflexite Lime**
Standard.
- ④ **Polyurethane Impact Liner (underside)**
- ⑤ **Large Hang-Up Loop**
Large enough to easily fit over a peg.
- ⑥ **Securely Attached Ear Covers**
Easily removed for cleaning.
- ⑦ **Leather Headband and Ratchet Cover with Mesh Crown**
Standard on all models.
- ⑧ **Anti-Catch Safety Bracket for Leather Fronts**
Exclusive on our traditional helmets.
- ⑨ **Lightweight, Low-Profile Design**
Weighs in under 1.4 kg (50 oz). Provides superior comfort and optimal balance.
- ⑩ **6-Point Suspension with Easy-to-Adjust Hook-and-Loop Headband System**
- ⑪ **Bulldog Edge Beading**
Rugged and durable.
- ⑫ **Adjustable Integrated EZ Touch Face and Eye Protection with Safety Lock**
Proprietary EZ Touch feature allows for one-touch deployment of your face protection.
- ⑬ **EZ Clip, Reversible Chinstrap with Quick-Release Buckle and Postman Slide**
For easy adjustment and proper fit.

Lightweight,
low profile,
unprecedented
comfort.

Adjustable, Integrated EZ Touch Lens

Proprietary EZ Touch feature allows for one-touch deployment of your face and eye protection. No fuss. No hassle. The EZ Touch lens stows internally and is released at the touch of a finger. It truly is the only solution for quick one-handed deployment.

Featuring a safety lock and a nose guard, the EZ Touch lens is easily adjusted to fit your face perfectly, thanks to its spring-loaded innovative design. In the event of impact, the face shield will move freely, avoiding potential nose fractures caused by non-spring loaded face shields available on the market.

Low-profile design combined with lighter-weight materials provides superior comfort and optimal fit. You will be amazed by how comfortable and well-balanced the EV1 feels once customized for perfect fit.

STRUCTURAL TRADITIONAL HELMET. NFPA 1971 CERTIFIED.

EV1 Traditional Model

HT-TRA-EV1

- Leather headband and ratchet covers
- EZ Touch internal face and eye protection with safety lock
