

 RES-Q-JACK®

STABILIZATION & LIFTING STRUTS AND ACCESSORIES
2023-2024 PRODUCT CATALOG

OUR TOOLS SAVE LIVES

These words are explicitly stated on an 8-foot sign at our facility because they are the underlying concern of all that we do, from innovation, research, and development to manufacturing, shipping, training, and customer service.

Res-Q-Jack products originated with Cris Pasto in 1992, when he joined his Fire Department and discovered that his BoWrench and other inventions from Cepco Tool could be adapted to stabilization and fire rescue. Pasto then developed several variations of the stabilizing jack stand, and when I acquired the company in 2004, these products grew into what we know today as Res-Q-Jack.

Since its conception, Res-Q-Jack continues to take the lead in vehicle stabilization and extrication tools. Our high performance lifting and rescue struts stand out from the rest because of our unique combination of innovation, versatility, and in-depth training.

INNOVATION. Our engineers are constantly researching and developing, and our many patents are evidence of this consistent innovation. Our patents detail the lightest and strongest lifting struts available for patient access and entrapment; multifunction strut heads for rapid engagement; chains, straps, and stakes for safe restraint; and custom strut materials to fit each individual client's needs.

VERSATILITY. Our tools can be used in a wide range of applications, from simple stabilization to active rescue and extrication of a pinned victim. Most commonly, our struts are used in vehicle, farm, storm, trench, aircraft, confined space, and other rescue environments - but our customers continue to use our products in even more versatile ways.

TRAINING. Our products come with free, hands-on, in-service training. We want you to be comfortable and successful using our tools, and we take no shortcuts in order to ensure that you are properly trained and can use all of our products correctly. Understanding our pioneering stabilization techniques and methods will help your success in the field, and these lessons are integrated into our training program, at your facility.

Since the inception of Res-Q-Jack, we've met the ever-increasing demand for the best in vehicle rescue equipment through innovation, versatility, and training as well as our dedication to listening to our customers and the rescue community at large for new and interesting ideas.

To this end, it is not just our innovative products and training programs that speak volumes as to our role as an aggressive industry leader. Nothing speaks as great as the incredible feedback we get from our customers with appreciation for the dependability of our equipment.

Please contact us if you have any questions or would like a demonstration of our equipment and techniques. And don't miss out on our latest innovations! Visit our web site at www.res-q-jack.com.

All the best,

A handwritten signature in black ink that reads "John H. Meier". The signature is written in a cursive, flowing style.

John H. Meier, President, Res-Q-Jack, Inc.

PATENTED TECHNOLOGY PATENTED TRAINING

Constant research and development of our products and techniques has kept us at the top of the market. Not only do we have unique rescue struts with patented designs, but our techniques are patented as well, through thorough testing and development. And our products all come with free, on-site training! At Res-Q-Jack, we will work hard to supply you with the best equipment possible, and we will show you the best techniques to apply our products as safely and efficiently as possible.

• GETTING IN THE TRENCHES

Res-Q-Jack releases its Trench Shore line. Phoenix Aluminum X is released for increased storage options.

• REACHING THE APEX

Following up on the popularity of the Auto X, Res-Q-Jack releases a the heavy-duty Apex X-Strut.

• ALPHA

X-STRUT SERIES

SUPER

STABILIZATION & LIFTING STRUTS

Featuring threaded collars in place of our standard pins, the Super X- Strut is our most intuitive and fastest-deploying strut. The Super X is not only effective for vehicle stabilization, lifting and extrication. It's also rugged enough for structural collapse, trench, and mine rescue (see our Technical Kits & SPX Trench Shoring systems). The Super X comes standard with a hollow inner tube (red) for a lighter-weight strut, but it may also be purchased with a solid inner tube (black) for a higher working load. With the highest working load of all our struts, the Super X is ideal for heavy rescue, but can also quickly stabilize and lift a small vehicle.

TECHNICAL SPECS

2:1 SAFETY FACTOR
In-house and third party tested

 SHORING WLL	Lbs	Kg
<i>Fully extended with Flat Plate end fitting and centered load</i>		
Standard Strut	19300	8754
Short Strut	19300	8754

 WEIGHT	Lbs	Kg
Standard Strut	46	21
Short Strut	36	16
Add-On Jack	23	11

 LIFTING WLL	Lbs	Kg
<i>With jack, fully extended, centered load</i>

	in.	cm	in.	cm
Standard Strut	100	255	67.5	172
Short Strut	69	175	51.5	131

Standard Strut

The standard-length Super X is designed for heavy vehicle and structural rescue. Comes standard with our Swivel CRG, Small Extrication Base Plate, and one Ratchet Strap with Wire Hooks.

Standard Super X-Strut

SPX-EX56

Short Strut

The short Super X is designed for lower-lift engagements and increased storage options. Comes standard with our Swivel CRG, Small Extrication Base Plate, and one Ratchet Strap with Wire Hooks.

Short Super X-Strut

SPX-EX41

Add-On Jack

This jack is made specifically for the Super X-Strut with a 6,000 lbs. (2,721 Kg) lifting capacity and a 2:1 safety factor.

Super X Add-On Jack

SPX-JACK

1 PIN-FREE OPERATION

Threaded inner tubing makes setup and operation fast and smooth, while allowing for infinitesimal height adjustment when stabilizing or lifting and lowering loads.

2 QUICK & COMPATIBLE END FITTINGS

Change end fittings in an instant with the pull of a single retaining pin. Our 360° swiveling head comes standard for precise placement on any purchase point. End fittings are compatible with our Apex and Auto X-Strut fittings, as well as competitor head fittings, and accept up to 36" of extensions on both short and standard size struts.

3 AIR FITTINGS AVAILABLE

Call us to ask about having the Super X-Strut milled with our air fitting for use with pneumatic systems.

4 X-STRUT LIFTING POWER

Transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured below) for 6,000lbs. (2:1) of on-demand lifting capability with 12 inches of resettable travel.

See extensions on page 37.

SUPER X COMPLETE KITS

1

CHOOSE YOUR KIT

We've designed our kits through years of experience and feedback to give you options to fit your needs and your budget.

2

CHOOSE YOUR STRUTS

Choose any combination of short or long struts. When choosing sizes, we recommend an equal number of short and long struts when possible.

3

GET YOUR FREE TRAINING*

All of our kits come with intensive in-service training at your facility, at no cost to you!* Your authorized dealer will provide you and your crew training on your new tools until you are comfortable using them.

2-Point Standard Kit

This kit gives you the ability to perform the four basic techniques found in our Quick Reference Guide, including: Wheel-Resting Side Lift, Wheel-Resting Rear Lift, Side-Resting Front Lift, and Roof-Resting Rear Lift.

Kit Contents:

- (2) Super X-Struts (short or long)
- (2) Super X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks

Super X 2-Point Standard Kit

SPX-2KIT

Texas 3-Point Kit

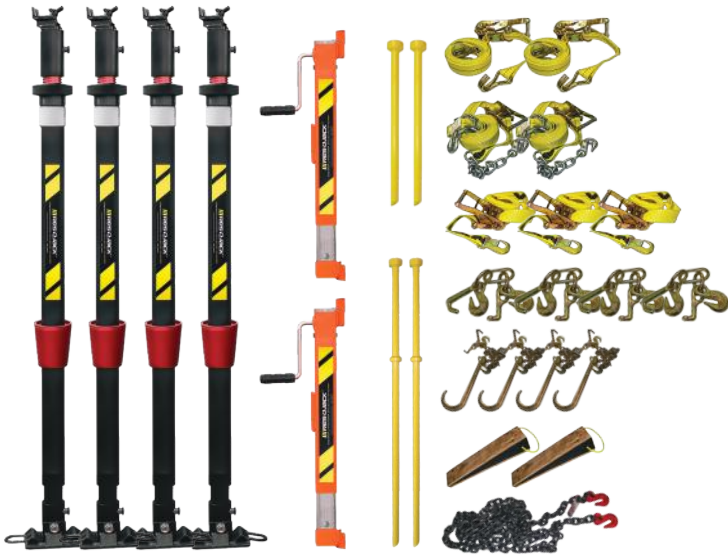

This kit allows for stabilization and lifting of one car. Because the kit comes with a variety of accessories, it is also suitable for stabilization in complicated or multi-vehicle scenarios.

Kit Contents:

- (3) Super X-Struts (short or long)
- (2) Super X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (1) 4' long 1" Picket w/ Collars

Super X Texas 3-Point Kit

SPX-TX3P

4-Point Deluxe Kit

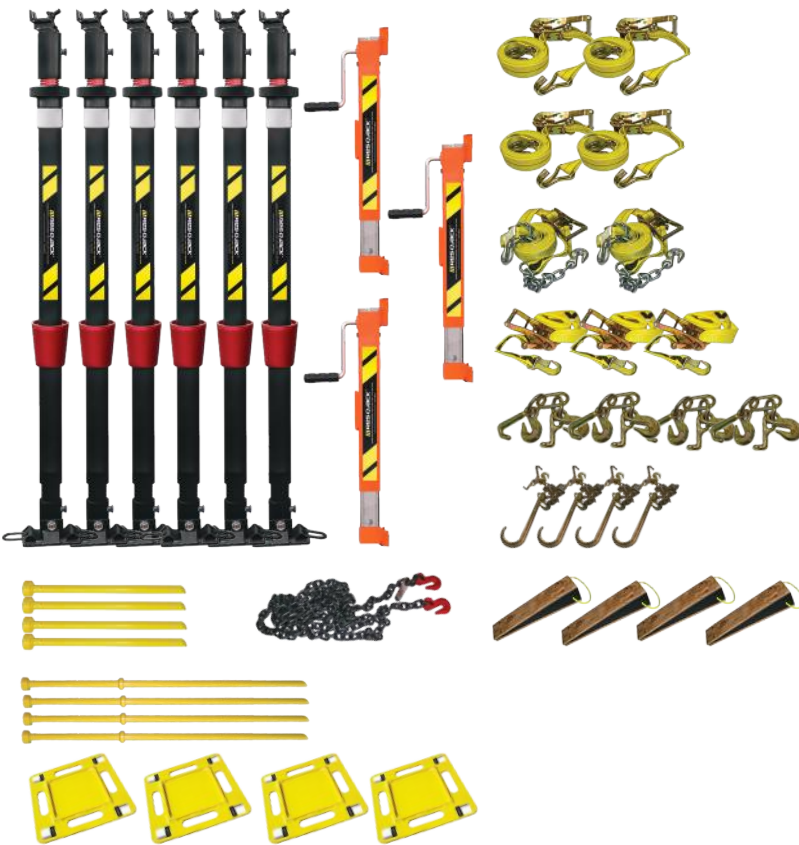

This kit gives you the ability to stabilize two cars and lift one of them. With enough accessories to manage and control all directions of movement, this kit is the best all-around package.

Kit Contents:

- (4) Super X-Struts (short or long)
- (2) Super X-Strut Add-On Jacks
- (2) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (2) 20" long 1" Stakes w/ Heads
- (2) 4' long 1" Pickets w/ Collars

Super X 4-Point Deluxe Kit

SPX-4PTX

2-Car Deluxe Kit

This kit is capable of stabilizing and lifting two cars in almost any situation, and can handle up to three cars in a more simple application. Accessories allow for many different applications and make stabilization in complex scenarios faster and easier.

Kit Contents:

- (6) Super X-Struts (short or long)
- (3) Super X-Strut Add-On Jacks
- (4) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (4) Wood/Plastic Hybrid Wedges
- (4) 20" long 1" Stakes w/ Heads
- (4) 4' long 1" Pickets w/ Collars
- (4) Load Spread Pads

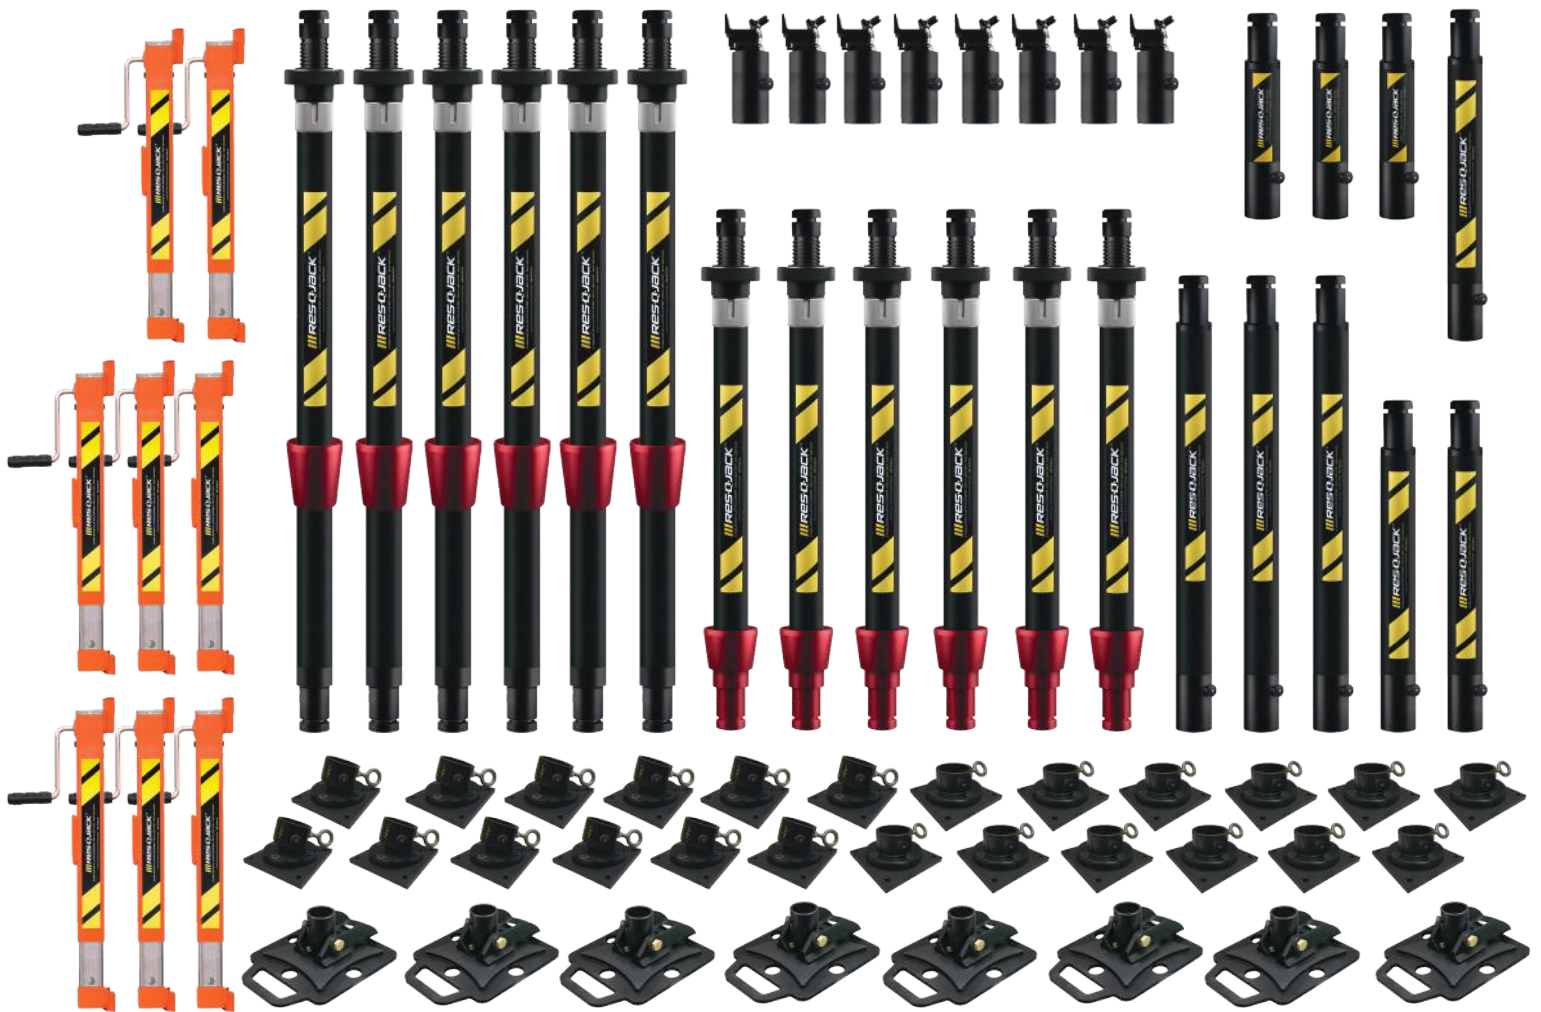

Super X 2-Car Deluxe Kit

SPX-2CRX

*Valid within the continental US only.
Dealer may add a travel charge for instances of excessive travel.

SUPERX TECHNICAL RESCUE KITS

Our technical rescue kits feature our heavy duty Super X-Strut along with a wide variety of end fittings that have applications in trench, mine, collapse and vehicle rescue environments. These versatile kits are suited for whatever scenario you may encounter.

12-Point Technical Rescue Kit

SPX-12PT

Kit Contents:

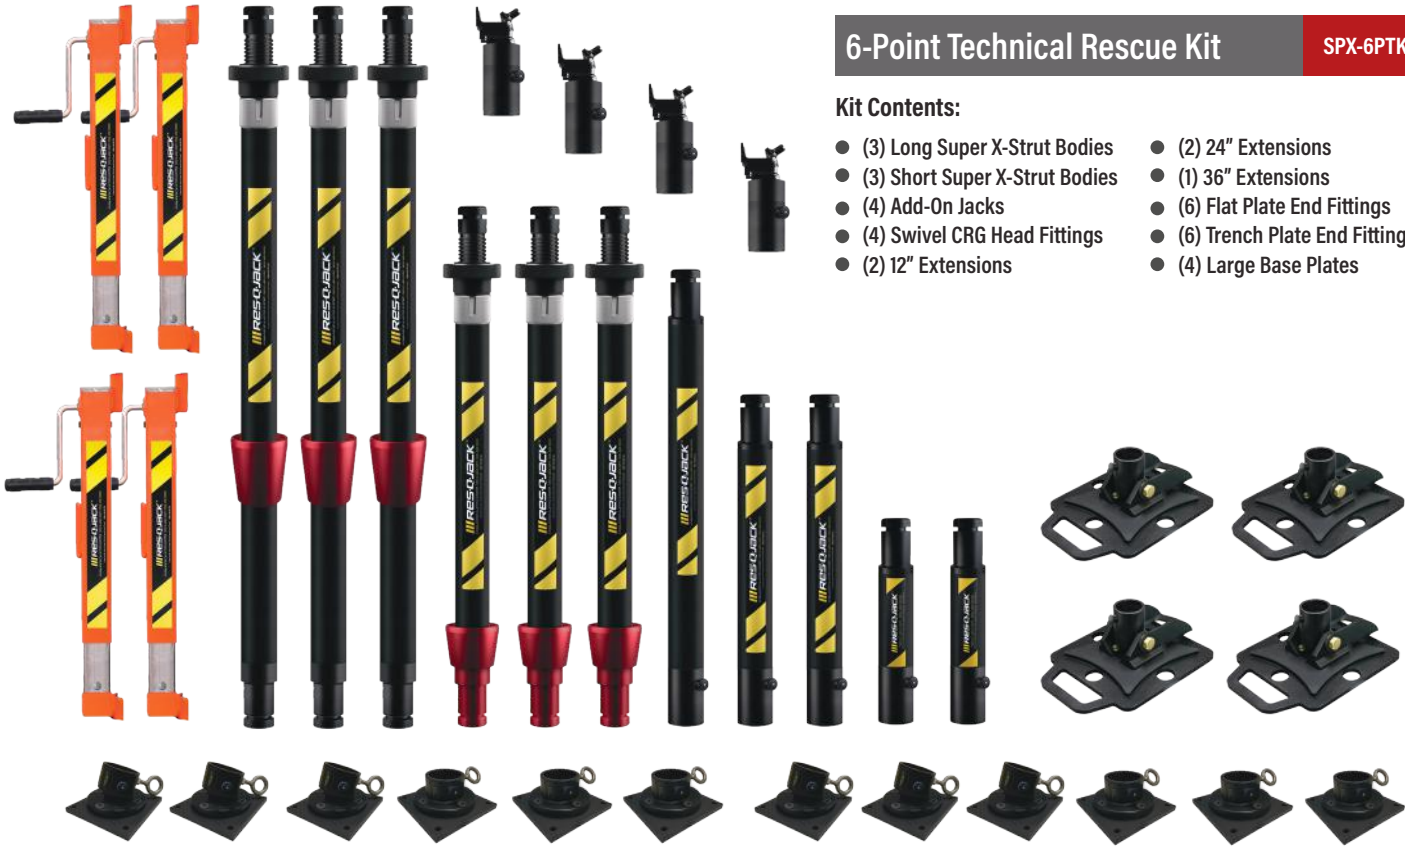

- (6) Long Super X-Strut Bodies
- (6) Short Super X-Strut Bodies
- (8) Add-On Jacks
- (8) Swivel CRG Head Fittings
- (3) 12" Extensions
- (3) 24" Extensions
- (3) 36" Extensions
- (12) Flat Plate End Fittings
- (12) Trench Plate End Fittings
- (8) Large Base Plates

6-Point Technical Rescue Kit

SPX-6PTK

Kit Contents:

- (3) Long Super X-Strut Bodies
- (3) Short Super X-Strut Bodies
- (4) Add-On Jacks
- (4) Swivel CRG Head Fittings
- (2) 24" Extensions
- (1) 36" Extensions
- (6) Flat Plate End Fittings
- (6) Trench Plate End Fittings
- (4) Large Base Plates

3-Point Technical Rescue Kit

SPX-3PTK

Kit Contents:

- (1) Long Super X-Strut Bodies
- (2) Short Super X-Strut Bodies
- (2) Add-On Jacks
- (2) Swivel CRG Head Fittings
- (1) 12" Extensions
- (1) 24" Extensions
- (1) 36" Extensions
- (3) Flat Plate End Fittings
- (3) Trench Plate End Fittings
- (2) Large Base Plates

SUPER

TRENCH SHORE KITS

The Super X Trench Shoring System excels in any trench rescue scenario. Machined from high grade aluminum and featuring the same functionality as our Super X-Strut line, the Trench Shoring System will meet all your trench shoring needs. The Super X Trench Shore features a unique positive stop that keeps the inner tube from falling out, and are available in three sizes to accommodate a variety of situations. Each is compatible with our Super X-Strut components, as well as competitor components.

SHORING WLL At various lengths*	26"	38,000 Lbs.	(17,236 Kg)

Kit Contents:

- (4) 28"/71 cm. Trench Shores
- (2) 18"/46 cm. Trench Shores
- (2) 24"/61 cm. Extensions
- (2) 12"/31 cm. Extensions
- (8) Trench Plates
- (4) Flat Plates
- (1) Air Inflator Kits (not pictured)

APEX

X-STRUT® SERIES LIFTING STRUTS

The new Apex X-Strut takes the popular design of our Auto X-Strut and beefs it up for even more capability. This well-rounded strut features the combination of a square aluminum outer tube, allowing for a ratchet on the standard size strut and an internal positive stop to eliminate the risk of over extension. Accepts up to 36" of extension on both the short and standard size strut.

TECHNICAL SPECS

2:1 SAFETY FACTOR
In-house and third party tested

ALUMINUM X

X-STRUT® SERIES LIFTING STRUTS

The Aluminum X is a premium lifting strut built from 6061-T6 aluminum and boasting a nearly 10,000lb. working load limit, without adding significant weight. With the X-Strut Series Add-On Jack technology, this strut is heavy duty in a manageable package, allowing for easy deployment and the ability to focus on a potential victim inside the vehicle.

Our lightweight, but high performance Aluminum X is great for departments who see heavier vehicle accidents or who want the added security of a heavy-duty strut.

TECHNICAL SPECS

2:1 SAFETY FACTOR
In-house and third party tested

 SHORING WLL	Lbs	Kg
<i>Fully extended with centered load</i>		
Standard Strut	9700	4399
Phoenix Strut	9700	4399
Short Strut	9700	4399

 WEIGHT	Lbs	Kg
Standard Strut	42	19
Phoenix Strut	37	17
Short Strut	30	14
Add-On Jack	25	11

 LIFTING WLL	Lbs	Kg
<i>With jack, fully extended, centered load</i>		
Standard Strut	6000	2721
Phoenix Strut	6000	2721
Short Strut	6000	2721

 HEIGHT	Extended		Collapsed	
	in.	cm	in.	cm
Standard Strut	98	250	56	143
Phoenix Strut	86.5	220	51	128
Short Strut	66.5	169	40	102

Standard Strut

The standard-length Aluminum X and the slightly shorter Phoenix model are designed for typical heavy-duty rescue scenarios. Comes standard with our Swivel CRG and built-in Ratchet Strap with Wire Hooks.

Standard Aluminum X-Strut	ALX-STRT-L
Phoenix Aluminum X-Strut	ALX-STRT-PH

Short Strut

The short Aluminum X is designed for lower-lift engagements and increased storage options. Comes standard with our Swivel CRG, and one Ratchet Strap with Wire Hooks. Ratchet Strap NOT built-in on short strut.

Short Aluminum X-Strut	SAX-STRT
------------------------	----------

Add-On Jack

This jack is made specifically for the Aluminum X-Strut with a 6,000 lbs. (2,721 kg) lifting capacity and a 2:1 safety factor.

Aluminum X Add-On Jack	ALX-JACK
------------------------	----------

- 1 OVERSIZED CONE PINS**
 The Aluminum X-Strut operates with our custom-manufactured oversized cone pins. The special flared-design automatically aligns with the jack for faster setup. The unique shape also makes these pins easier to grip and harder to lose.
- 2 ON-BOARD RATCHET STRAP**
 The Aluminum X-Strut and Phoenix Aluminum X-Strut each include a ratchet strap with wire hooks mounted on the side of the strut chassis, keeping your strap right where you want it for faster response.
- 3 BASE-MOUNTED D-RINGS**
 Pivoting rings built into the base plate allow for fast attachment of straps, hooks and chains, or double as a picket receiver when anchoring is needed.
- 4 X-STRUT LIFTING POWER**
 Transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured below) for 6,000lbs. (2:1) of on-demand lifting capability with 12 inches of resettable travel.

ALUMINUM X COMPLETE KITS

1

CHOOSE YOUR KIT

We've designed our kits through years of experience and feedback to give you options to fit your needs and your budget.

2

CHOOSE YOUR STRUTS

Choose any combination of short or long struts. When choosing sizes, we recommend an equal number of short and long struts when possible.

3

GET YOUR FREE TRAINING*

All of our kits come with intensive in-service training at your facility, at no cost to you!* Your authorized dealer will provide you and your crew training on your new tools until you are comfortable using them.

2-Point Standard Kit

This kit gives you the ability to perform the four basic techniques found in our Quick Reference Guide, including: Wheel-Resting Side Lift, Wheel-Resting Rear Lift, Side-Resting Front Lift, and Roof-Resting Rear Lift.

Kit Contents:

- (2) Aluminum X-Struts (short or long)
- (2) Aluminum X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks

Aluminum X 2-Point Standard Kit

ALX-2KIT

Texas 3-Point Kit

This kit allows for stabilization and lifting of one car. Because the kit comes with a variety of accessories, it is also suitable for stabilization in complicated or multi-vehicle scenarios.

Kit Contents:

- (3) Aluminum X-Struts (short or long)
- (2) Aluminum X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (1) 4' long 1" Picket w/ Collars

Aluminum X Texas 3-Point Kit

ALX-TX3P

4-Point Deluxe Kit

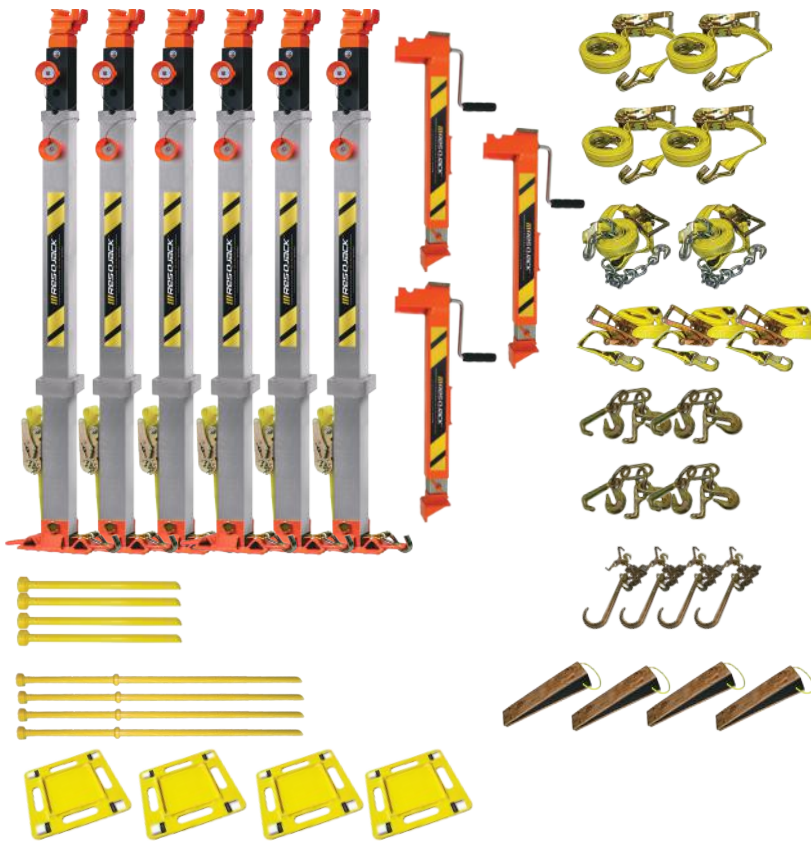

This kit gives you the ability to stabilize two cars and lift one of them. With enough accessories to manage and control all directions of movement, this kit is the best all-around package.

Kit Contents:

- (4) Aluminum X-Struts (short or long)
- (2) Aluminum X-Strut Add-On Jacks
- (2) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (2) 20" long 1" Stakes w/ Heads
- (2) 4' long 1" Pickets w/ Collars

Aluminum X 4-Point Deluxe Kit

ALX-4PTX

2-Car Deluxe Kit

This kit is capable of stabilizing and lifting two cars in almost any situation, and can handle up to three cars in a more simple application. Accessories allow for many different applications and make stabilization in complex scenarios faster and easier.

Kit Contents:

- (6) Aluminum X-Struts (short or long)
- (3) Aluminum X-Strut Add-On Jacks
- (4) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (4) Wood/Plastic Hybrid Wedges
- (4) Load Spread Pads
- (4) 20" long 1" Stakes w/ Heads
- (4) 4' long 1" Pickets w/ Collars

*Free training valid within the continental US only. Dealer may add a travel charge for instances of excessive travel.

STEEL X

X-STRUT® SERIES LIFTING STRUTS

The Steel X-Strut is the most well-rounded steel stabilization strut on the market. The Steel X-Strut is a standard duty and affordable addition to the X-Strut Series. Filling the gap between the lightweight Green Lite and our premium Aluminum X, the Steel X combines the functionality of the X-Strut Series with enough working load for all of your common rescue situations.

TECHNICAL SPECS

GREENLITE™

X-STRUT® SERIES LIFTING STRUTS

You don't need to sacrifice quality or effectiveness to come in at your budget. The Greenlite X-Strut boasts the same features as our bigger struts, but is scaled down for use with lighter-duty vehicles.

When combined with the Add-On Jack, our Greenlite is hands-down, the MOST CAPABLE strut you can get in this price range. This light-duty steel strut packs all the features of the X-Strut Series, but measures in at a fraction of the weight. With a 2,500 lb. working load limit, the Greenlite is perfect for departments that see many compact car accidents.

TECHNICAL SPECS

Adjustable Stand units have no lifting capability.

RJ3 Jack Stand

The RJ3 Jack Stands are the struts that started it all. This strut revolutionized the industry with its integrated jack, giving you the ability to lift while stabilizing. Featuring a modular design, the RJ3 Jack Stand is capable of being disassembled and rearranged to accommodate different applications. The RJ3 Series struts are designed to be rugged, versatile and easy to use. Operates with our easy-to-use Tab-Lock pins. Includes CAM Buckle Straps, carry handle, and Swivel CRG Head Fitting.

Jack Stands Feature:

- 4,000 lb (1,814 Kg) built-in lifting ability
- CAM Buckle Straps
- Integrated Carry Handle
- Swivel CRG Head

RJ3 Jack Stand

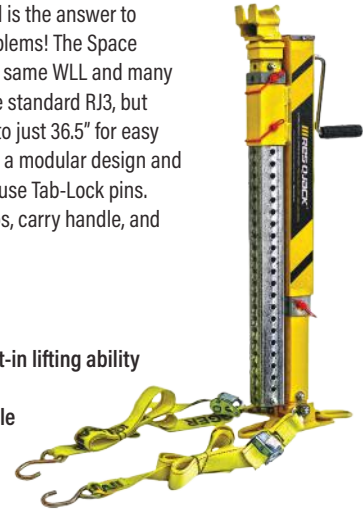

RJ3-JKST

Spacesaver Jack Stand

The Spacesaver Jack Stand is the answer to your common storage problems! The Space Saver series maintains the same WLL and many of the same features as the standard RJ3, but has the ability to collapse to just 36.5" for easy storage. This strut features a modular design and operates with our easy-to-use Tab-Lock pins. Includes CAM Buckle Straps, carry handle, and Swivel CRG Head Fitting.

Jack Stands Feature:

- 4,000 lb (1,814 Kg) built-in lifting ability
- CAM Buckle Straps
- Integrated Carry Handle
- Swivel CRG Head

Spacesaver Jack Stand

SPS-JKST

RJ3 Adjustable Stand

The RJ3 Adjustable Stand is our most simple vehicle stabilization strut, with a single pin operation. The RJ3 Adjustable Stand operates with our easy-to-use Tab-Lock pins, and includes CAM Buckle Straps, Fixed CRG Head Fitting and built-in carry handle. *Stabilization only, no lifting capability.*

Adjustable Stands Feature:

- CAM Buckle Straps
- Integrated Carry Handle
- Fixed CRG Head

RJ3 Adjustable Stand

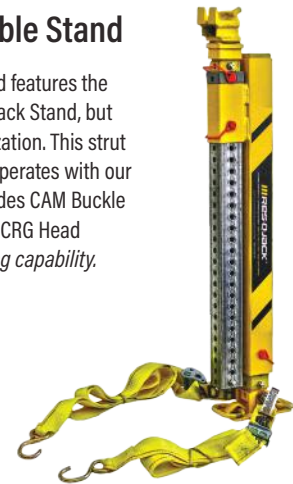

RJ3-ADST

Spacesaver Adjustable Stand

The Spacesaver Adjustable Stand features the same collapsible design as the Jack Stand, but is built strictly for vehicle stabilization. This strut features a modular design and operates with our easy-to-use Tab-Lock pins. Includes CAM Buckle Straps, carry handle, and Swivel CRG Head Fitting. *Stabilization only, no lifting capability.*

Adjustable Stands Feature:

- CAM Buckle Straps
- Integrated Carry Handle
- Swivel CRG Head

PIN-FREE END FITTINGS

Tripod Head

Turn three Super X-Struts into a technical rescue tripod with this pin-free head fitting. (pictured above) The Tripod Head features a powder coated steel crown with three machined aluminum attachments for fast setup. Struts sold separately.

For Use With: Super X - Apex - Auto X

Pin-Free Tripod Head	SPX-TRPD
----------------------	----------

Large Base Plate

This 12 in. (31 cm) swiveling base plate will work in a wide range of scenarios, especially when you need to spread out the load on soft ground. Made from machined aluminum.

For Use With: Super X

Large Base Plate	SPX-12BP
------------------	----------

Pin-Free Extensions

Reach new heights with these extension tubes. These easy-to-use extensions are machined from 6061 T-6 aluminum and provide extra length to your Pin-Free X-Struts, Trench Shore, and Technical Rescue Kits. Available in one, two and three foot lengths.

Short Extension (12 in / 31 cm)	SPX-12EX
Medium Extension (24 in / 61 cm)	SPX-24EX
Long Extension (36 in / 92 cm)	SPX-36EX

Extrication Base Plate

Our standard, swiveling base plate, but built specifically for the Super X. This lightweight design includes D-rings for stakes or for engaging straps and chains. Features machined aluminum attachment with powder coated steel base and rings.

For Use With: Super X

Extrication Base Plate	SPX-EXBP
------------------------	----------

CRG Head

The CRG combines the Channel, Round Point and Chain Grab end fittings into one revolutionary head, making changing heads during a rescue unnecessary.

For Use With: Super X - Apex - Auto X

Pin-Free CRG Head	SPX-SCRG
-------------------	----------

Trench Plate

This swiveling ball-joint plate is ideal for trench rescue shoring, but can also be used in structural shoring. 4 corner holes for securing with nails or screws. Made from machined aluminum.

For Use With: Trench Shore - Super X - Apex - Auto X

Trench Plate	SPX-TRBP
--------------	----------

Flat Plate

This 6 in. (15 cm) fixed plate is a straightforward shoring head. Recommended for structural applications and trench rescue. Made from machined aluminum.

For Use With: Trench Shore - Super X - Apex - Auto X

Flat Plate Head	SPX-FLTH
-----------------	----------

Darlington Head

The Darlington Head allows you to marry two struts together by linking the CRG Heads together. This allows for an easier set up to perform the Darlington Roll. Also can be used to set up a Bi Pod using two struts.

For Use With: All Res-Q-Jack Struts

Darlington Head Attachment

DAR-HEAD

Ratcheting Wheel Chock

A rugged and easy-to-use option for chocking wheels, this chock won't "push" both sides of the wheel with just one piece of equipment, as do oversized blocks and chocks.

Ratcheting Wheel Chock

ACC-WCHK

EZ Picket Plate

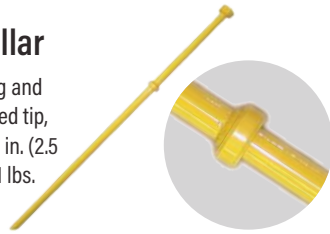

The EZ Picket Plate features three oversized collars for 1" diameter pickets, which are set at 20° angles for fast and precise placement. Includes two extra holes to accommodate pickets up to 1 5/8" (4 cm) diameter. The EZ Picket Plate measures 30 in. (76 cm) long by 6 in. (15 cm) wide and features a built-in carry handle, D-Ring and diamond plate foot print.

EZ Picket Plate

ACC-EAPP

Solid Picket W/ Collar

This picket is 4 ft (122 cm) long and features a solid core, 45° angled tip, and welded collar. Measures 1 in. (2.5 cm) in diameter and weighs 11 lbs. (5 Kg)

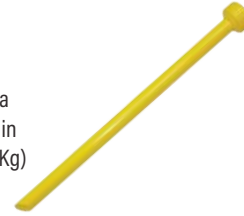

Solid Steel Picket with Collar

ACC-PCKT

Stake

Our Stake is 20 in. (51 cm) long and features a solid core with a 45° tip. Measures 1 in. (2.5 cm) in diameter and weighs 5 lbs. (2 Kg)

Solid Steel Stake

ACC-STKE

Ram Plate

This heavy duty, multi-purpose ram support plate should be placed over a rocker panel to achieve multiple engagement points for your ram when performing a dash displacement.

Ram Plate

ACC-RAMP

Load Pad

This 14 in. (36 cm) x 14 in. (36 cm) load pad allows you to spread the load evenly over soft ground. Four carry holes double as stake holes, and the inner strut pocket is designed to fit the strut base.

Load Pad

ACC-LOAD

Tab Lock Pin

Our standard, easy-to-use, 3/8" (1 cm) diameter pins. With a self-contained method of retaining the pin, our tab lock pins eliminate cotter pins or other accessories that would require removal of gloves. 4,000 lbs. (1,818 Kg) WLL.

Tab Lock Pin

ACC-TABO

Cone Pin

Shipped with our X-Struts, these ergonomic pins are easy to operate and fast to use. Steel X pins and Green Lite pins are 5/8" (1 cm) in diameter with 4,000 lbs. (1,818 Kg) WLL, and Aluminum X pins are 3/4" (2 cm) in diameter with 10,000 lbs. (4,545 Kg) WLL.

Cone Pin for Steel X & Greenlite

ACC-SCNP

Cone Pin for Aluminum X

ACC-ACNP

Tripod Head

Turn your pin-operated struts into a tripod for technical rescue scenarios. Features powder coated steel crown and tubular steel legs. Secured with our hardened steel tab lock pins. Steel X / RJ3 and GreenLite heads include 36 in. (92 cm) extensions to reach up to 9 ft (2.75 m).

Tripod Head for Aluminum X	ALX-TRPD
Tripod Head for RJ3 & Steel X	RJ3-TRPD
Tripod Head for Greenlite	GLX-TRPD

Ratchet Strap w/ Snap Hooks

This 15 ft (4.5 m) x 2 in. (5 cm) medium duty ratchet strap has a WLL of 2,000 lbs (909 Kg), and the snap hooks at each end can hook inside items such as a link of 3/8" (1 cm) chain.

Ratchet Strap with Snap Hooks

ACC-RSSN

Cam Buckle Strap

Attached to a bolt plate for easy connection to a base, this strap is 9 ft (2.75 m) x 2 in. (5 cm) with an S-hook and a WLL of 700 lbs. (318 Kg).

Cam Buckle Strap

ACC-CAMB

Ratchet Strap W/ Chain

This 27 ft (8 m) strap is 2 in. (5 cm) wide with a 3,330 lbs. (1,510 Kg) WLL. Its attached D-Ring, 3/8" (1 cm) chain, and grab hook provide a strong base restraint.

Ratchet Strap with Chain & Grab Hook

ACC-RSCH

Ratchet Strap w/ Wire Hooks

Ratchet Strap with Wire Hooks

ACC-RSWH

Hybrid Wedge

This wedge is made with plastic sandwiched between two pressure treated wood skins, reducing slippage associated with all-plastic cribbing.

Hybrid Wedge

ACC-WDGE

Cluster

This cluster of hooks contains one T-Hook, one mini-J and 2 grab hooks. With two connecting links for rapid attachment, this grade 70 cluster is convenient for any scenario.

Cluster

ACC-CLST

J-Hooks

These large hooks can attach to a wide variety of structures including posts, axles, or frame components. The hooks are grade 70, rated for 4,700 lbs. (2,136 Kg), and come in two useful sizes.

Small J-Hooks (8 in / 20 cm)

ACC-JHK8

Large J-Hooks (15 in / 38 cm)

ACC-JH15

Chain/Hook Slings

Designed specifically for vehicle stabilization, these J-Hooks are attached to a grab hook and 4 ft (1.2 m) of 5/16" (8 mm) grade 70 chain connected to another grab hook, a mini-J and a T-Hook.

Small Chain/Hook Sling (8 in / 20 cm)

ACC-SLG8

Large Chain/Hook Sling (15 in / 38 cm)

ACC-SL15

Grade 80 Chain

This rugged chain is 3/8" (1 cm) with grab hooks and a WLL of 7,100 lbs. (3,227 Kg), this chain is approved for overhead lifting. Available two lengths.

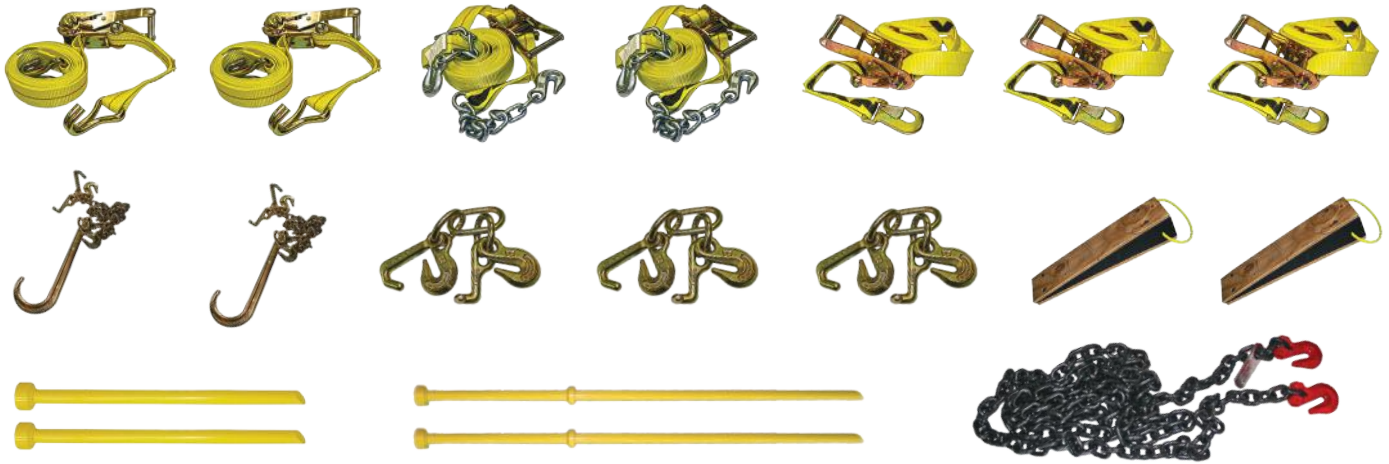

Grade 80 Chain (16 ft / 5 m)

ACC-CHAN

Grade 80 Chain (20 ft / 6 m)
